## THE PURPOSE OF PROCESSING YOUR DATA

Kolding Municipality's Early Childhood Education and Care services (nurseries and family day care) are participating in a research project called Learning Leadership (Læringsledelse). The aim of the project is to find knowledge-based ways to improve the quality of day-care through the involvement of all stakeholders.

In this research work, data from all stakeholders carries significant weight.

You will be asked to fill in a questionnaire about your child/children's well-being, learning, and development.

You and your child(ren)'s data is collected on behalf of Aalborg University by Conexus, Norway. Conexus will forward your and your child(ren)'s data to the Centre for Studies of Educational Practice at the Inland Norway University of Applied Sciences.

Conexus is a data processor and therefore acts according to Aalborg University's instructions, which means that they will delete your and your child's/children's data when we request them to do so.

The Centre for Studies of Educational Practice is a collaborating party in the project, and their tasks include data analysis.

Your and your child(ren)'s information will be anonymised, so that you and your child(ren) cannot be identified via any publications. The anonymised data may be used for future research projects.
